Frozen Whole Eggs

Ingredients: Frozen, pasteurized whole eggs.

Specifications:

Solids	24.2% min.
Fat	10.2% min.
Protein (N x 6.25)	12.0% min.
pH	7.3 +/- 0.3
Standard Plate Count	5,000 cfu/g max.
Salmonella (in 375g)	Negative
Listeria spp	Negative
Staph	Negative
E. Coli	Less than 10 cfu/g
Coliform	10 cfu/g max.
Yeast & Mold	10 cfu/g max.

The standard package is a 30-pound (13.6kg) plastic pail. Special packaging or product characteristics may be provided when required by the customer.

This product is certified ***Kosher*** by the Union of Orthodox Jewish Congregations of America (O.U.). This product is certified ***Halal*** by the Islamic Food and Nutrition Council of America (IFANCA). This product is manufactured under the continuous inspection of USDA Resident Inspectors.

Storage:

This product must be stored at 0°F or below at all times. If the product is stored under this condition, the recommended shelf life is 18-months from the date of manufacture.

To thaw, frozen egg should be placed in a refrigerator at 40°F or lower. Thawing will normally take 2 to 3 days. Once removed from a freezer, this product should be kept properly refrigerated at all times until ready for use. This product must never be partially or fully thawed and then refrozen. Slight agitation is recommended prior to use. During use, holding vessels or containers must be handled in an appropriate manner to prevent contamination and maximize shelf life. Once thawed, recommended shelf life is seven (7) days.
